1- Drone Filming

Looking to empower your business with stunning aerial drone photography and videography? We provide best-in-class drone (UAV unmanned aerial Vehicles) services also known as the “eye in the sky”. Universal Production [UP] handles the whole process: from flight, to data processing, to Video edits and cut down. We help you leverage a drone's eye view by capturing and delivering gorgeous aerial photos and video and generating the traction your project deserves. Our drone services are tailored to fit every client’s needs. Our pilots are professional, well trained and experienced.

If you are in the construction industry, we offer you progress documentation services that allow you to keep your project owners happy with timely data. We add a whole new dimension to your aerial photography & videography needs at a decent price. Additionally, we give you and your distributed team transparency on the conditions on site, and allow you to find costly errors before they even happen. Aerial drone technology reduces cost and offers new inspection and measurement capabilities. It helps you capture the experience from a thrilling vantage point.

By offering professional aerial video, photo, and imaging, our drone systems provide safe, accurate, and cost-effective data collection, so we can take our clients to new heights!

2- Construction Progress Videography and Photography

Our team of specialist have the knowledge and skills to see your project through from start to finish, offering you results that are far beyond your expectations. Universal Production [UP] offers outstanding professional quality videos where each video is bespoke, beautiful and edited to your taste and style. We build a story around your video and add copyright free music, colour grading and special effects. We remove noise and in the post production stage, we add additional sound and music in the background to create a soothing effect.

When it comes to editing videos for construction, we can do great things with all types of footage. We choose a high quality editing service to guarantee we bring your video to life. With years of experience and a passion for creating perfectly edited videos, we're committed to excellence. We make the process simple and cost-effective, so we can deliver creative, attractive and spectacular visuals. At Universal Production [UP], we make sure your footage is edited to perfection, delivering superior quality videos and a fantastic finished product.

3- Live Time Lapse Cameras

Time-lapse photography is a technique that Universal Production [UP] uses to capture great imagery to create an amazing time lapse film (small film), and to produce breath-taking results with emotional impact. For us, time lapse is not just a series of images played back in sequence, it's an art that requires a lot of creativity, especially in the construction industry.
